Re: **GMO Site, 341 East Ohio Street, Chicago, Illinois**

Dear Mary:

Enclosed is a copy of the letter dated November 2, 2001 from STS Consultants, Ltd. ("STS") to me which supplements its proposal letter dated October 19, 2001 regarding additional subsurface investigation for pesticides and radiological materials at the GMO Site. The November 2, 2001 letter describes protocols for the handling of soil cuttings resulting from the soil drilling work. The November 2, 2001 letter does not change the scope of the investigation but merely clarifies how STS will manage the soil cuttings generated by the drilling.

You have previously advised that the U.S. Environmental Protection Agency approves the scope of the October 19, 2001 proposal letter and will be sending a letter confirming its approval. On the basis of the oral approval, STS has been authorized to proceed with the work described in the October 19, 2001 proposal letter, as supplemented by the enclosed November 2, 2001 letter. STS plans to start the drilling work around 11 a.m. tomorrow November 9, 2001.

Re: GMO Site, 341 East Ohio Street, Chicago, Illinois

Dear Mary:

I sent you a letter earlier this morning which I mistakenly dated for tomorrow and which stated that the drilling work would be commenced by STS Consultants, Ltd. on the GMO Site on November 9, 2001. I was confused on the dates as today is November 7, not November 8. Accordingly, please note that the drilling will start tomorrow, November 8, not November 9 as stated in my earlier letter. I apologize for the confusion.

Very truly yours,

Timothy Ramsey
